Re: Water Right Permit No's. **S2-29508 and S2-29509** (Summit Lake)

Dear Ms. Chase:

Upon review of your file it appears that you are in the Completion of Construction phase of the development schedule for your projects. Therefore in response to your request, you are hereby granted an extension to complete construction for the reasons below:

- Good faith, due diligence, and good cause has been shown by the permit holder.
- Nature and scope of the project.

Your new deadline to complete construction and send Completion of Construction forms is **June 1, 2011.**

You have a right to appeal this decision. To appeal this you must:

- File your appeal with the Pollution Control Hearings Board within 30 days of the "date of receipt" of this document. Filing means actual receipt by the Board during regular office hours.
- Serve your appeal on the Department of Ecology within 30 days of the "date of receipt" of this document. Service may be accomplished by any of the procedures identified in WAC 371-08-305(10). "Date of receipt" is defined at RCW 43.21B.001(2).

Be sure to do the following:

- Include a copy of this document that you are appealing with your *Notice of Appeal*.
- Serve and file your appeal in paper form; electronic copies are not accepted.

**1. To file your appeal with the Pollution Control Hearings Board**

Mail appeal to:

OR Deliver your appeal in person to:

The Pollution Control Hearings Board  
PO Box 40903  
Olympia WA 98504-0903

The Pollution Control Hearings Board  
4224 – 6th Ave SE Rowe Six, Bldg 2  
Lacey WA 98503

**2. To serve your appeal on the Department of Ecology**

Mail appeal to:

OR Deliver your appeal in person to:

The Department of Ecology  
Appeals Coordinator  
P.O. Box 47608  
Olympia WA 98504-7608

The Department of Ecology  
Appeals Coordinator  
300 Desmond Dr SE  
Lacey WA 98503

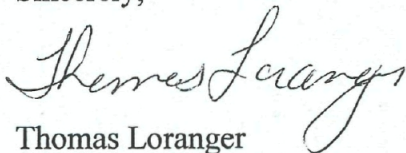

**3. And send a copy of your appeal to:**

Thomas Loranger  
Department of Ecology  
Southwest Regional Office  
PO Box 47775  
Olympia WA 98504-7775

Dear Ms. Lattimore:

Re: Request for extension, water permits: **S2-29508 & S2-29509** (Summit Lake)

Thank you for talking with me today and clarifying this issue!

My husband and I own 2 lots on Summit Lake. Our water rights are set to expire June 1, 2009 and we would like to request extensions.

We are currently building on the water front lot (Parcel # <sup>52-29508</sup> 77120023200) and the home is in the framing stage. The trench for the water line has been dug, but the pump will not be in place prior to the current expiration date, June 2009. Please consider **extending the water permit for 2 years** to ensure completion of the system and one year's data collection before proof of appropriation is filed.

The <sup>52-29509</sup> 2<sup>nd</sup> lot (Parcel # 771202166000) is located across the road from the water. Construction has not started on this project yet. We will be putting in the septic system and trenching the water line at the time of installation of the septic system for the waterfront lot this summer. This project is only in the initial stages and will require more time for design and finances. Please consider **extending the Completion of Construction water permit for 4 years**.

**We respectfully request these extensions for water permits** on both parcels. This will allow time to complete building projects and begin drawing water at anticipated domestic supply rates.

Please contact me at (360) 866-1535 or [rdmchase@comcast.net](mailto:rdmchase@comcast.net) if you have any questions or if I failed to present sufficient information. Thank you for your consideration.

Sincerely,

Melissa A. Chase

Enclosure: \$50.00 check # 6062

4/21/09  
ok to extend CC.  
to June 1, 2011

Re: Water Right Permit No's. **S2-29508 and S2-29509** (Summit Lake)

Dear Ms. Chase:

Thank you for sending your extension requests for the above referenced permits. Your request made note that the check for the processing fee was included in the envelope. When we received the letter on April 3, 2009, no check was found. If this is an oversight please send us the processing fee, we will need to receive this before we can evaluate your requests. If the check was cashed and then lost by Ecology, please send us a copy of the canceled check and we will proceed from there.

Please make a note of the new Cashiering address:

Department of Ecology  
Cashiering Unit  
PO Box 47611  
Olympia WA 98504-7611

At this time I would like clarification on the stage of development of each of the projects. From your request you stated that for permit S2-29509 (#77120023200), the water system is complete but waiting for final hookup once the house is finished and in use. When the water is being used you should collect at least one years of worth of metering data before filling the Proof of Appropriation form. Your two year extension request seems adequate for that, however if you anticipate a delay in completion of the project you should request additional time.

For permit S2-29508 (#771202166000) has the project been started and if so, is the water system in place? If you have not started the project it would probably be better to move this permit back to the Completion of Construction phase of the development schedule. If you could clarify the status of each your permits as soon as possible I would appreciate it. If you have any questions, please contact me at (360)407-0274 or [clat461@ecy.wa.gov](mailto:clat461@ecy.wa.gov).

Sincerely,

Charlotte Lattimore
